

NAME. BWOGERE EMMANUEL.

VILLAGE. JINJA

AGE. 9 YEARS

We were staying at our home in Jinja with our mother, when one day she took us to the village and started living with our Aunt who sold us to a certain farm in the village to start working, we could wake up early in the morning and start feeding the chicken, milking cows, could again go and look for cows grass in the field plus collecting firewood in the bush. By the time it reached midday we could be tired very tired. Whenever I was sitted alone always got worried about what will happen to me when I grew older because I had no education and I didn't know music. After along while I was brought by one kind man who paid the man who was making us to work for him and I ended up at M-lisada home where I have always been treated like a child and now I can play music and now I have a grade three certificate of ABRSM in trumpet.

I want to become a mechanic in future.
