

NAME. NAMATA EVE.
VILLAGE. NSAMBYA GOGONYA.
AGE. 14 YEARS

I was living with my single mother in Nsambya, attending st Paul primary school in primary six. Time came when my mother was chased away from the house because she could no longer pay rent. And after a while I was chased away from School, when I talked with my mother about my future I told her that I would be better if I could start learning to perform culture dance and drama instead staying home always as I had been chased away from school also because my mother could not pay my school fees any more. Right now I can dance all the different types of cultural dances.

I want to become a nurse in future.
