

NAME. NAKACWA SOPHIA.
VILLAGE. NSAMBYA KEVINA.
AGE. 12 YEARS

After losing all my parents I started living with my elder sister and brother who could try to get some food and medicine for me but unfortunately one day my brother was arrested and my sister fell very sick that she could not do any work to buy any more food and pay for her medicine. I started to go begging for food which became uncomfortable for me. One elder lady took my sister to hospital where she was admitted. One of the leaders at M-lisada asked me to come with him at the M-lisada home, where I was introduced to many children doing several activities such as brass band, cultural dance and drama, acrobatics and many others I very much like the smiling faces of the children I found at the M-lisada home who became my friends so easily and I very much like to be sitting around with my girl friends talking and sharing different ideas about our past experiences. Right now I can perform in both the brass band by playing the symbols and in the cultural group where I dance all forms of traditional dances. I have become so happy and how to make friends wherever we go to perform and at the m-lisada home.

If I get an opportunity to join school I want to become a lawyer in future, so that I fight for children,s abused rights in Uganda.
