

NAME. MWOLESE TONY.

VILLAGE. NDEJJE.

AGE. 11 YEARS

Whenever I could hear of famous people they could always be either politicians or musicians but I admired musicians very much. I dropped out school after losing my Dad. Because no one could pay for my school fees, I had to sit for three years at home because my mother was not working. It had become common and normal to sleep on an empty stomach. The most challenging moment in my life was when I was not going to school yet other children were going to school. I had friend who had already joined M-lisada home and was learning brass band theory music playing the trumpet and whenever I could see him play the music instrument I always admired him and knew that one day he will be very rich just like the other musicians in our country. I kindly requested him to ask the leaders at M-lisada to admit me in the m-lisada activities. Before I was allowed to join my mother fell very sick and was admitted in hospital but unfortunately she died and I started sleeping on the streets of Ndejje town which next to Entebbe airport thank God that one day while moving around the town my other friend who was a member of M-lisada Home came with one leader and took me to Nsambya Ave Maria where I started living with the other children and right now I can play the trumpet and I have a grade three certificate from the British Royal School of Music. And right now I want to attend school and become a pilot in future and a musician.
