

NAME. NAMALA TOPISTA.

VILLAGE. MITYANA.

AGE. 10 YEARS

Since I was very young, life was not easy, I have never seen both of my parents as they died when I was very young. I had to go and start staying with my grandmother who was very old, I was the one who could fetch for her water, wash her clothes and cook for her whenever we had food at home because I was very young most people always complained that I was doing a lot of hard. The local council leaders found a lady from the community who started to come and helping my grandmother with the house work and they later brought me to M-lisada home to start learning music and right now a member in the M-lisada cultural group where I perform both drama and cultural dances.

I found joy and happiness, peace at M-lisada home, although there were many children they all want to be well in future, I want become a nurse in future.
